

# GoPayWallet

A Forex Payment Wallet for Spot Cash.

Team 14:

Raj Kamal Yadav

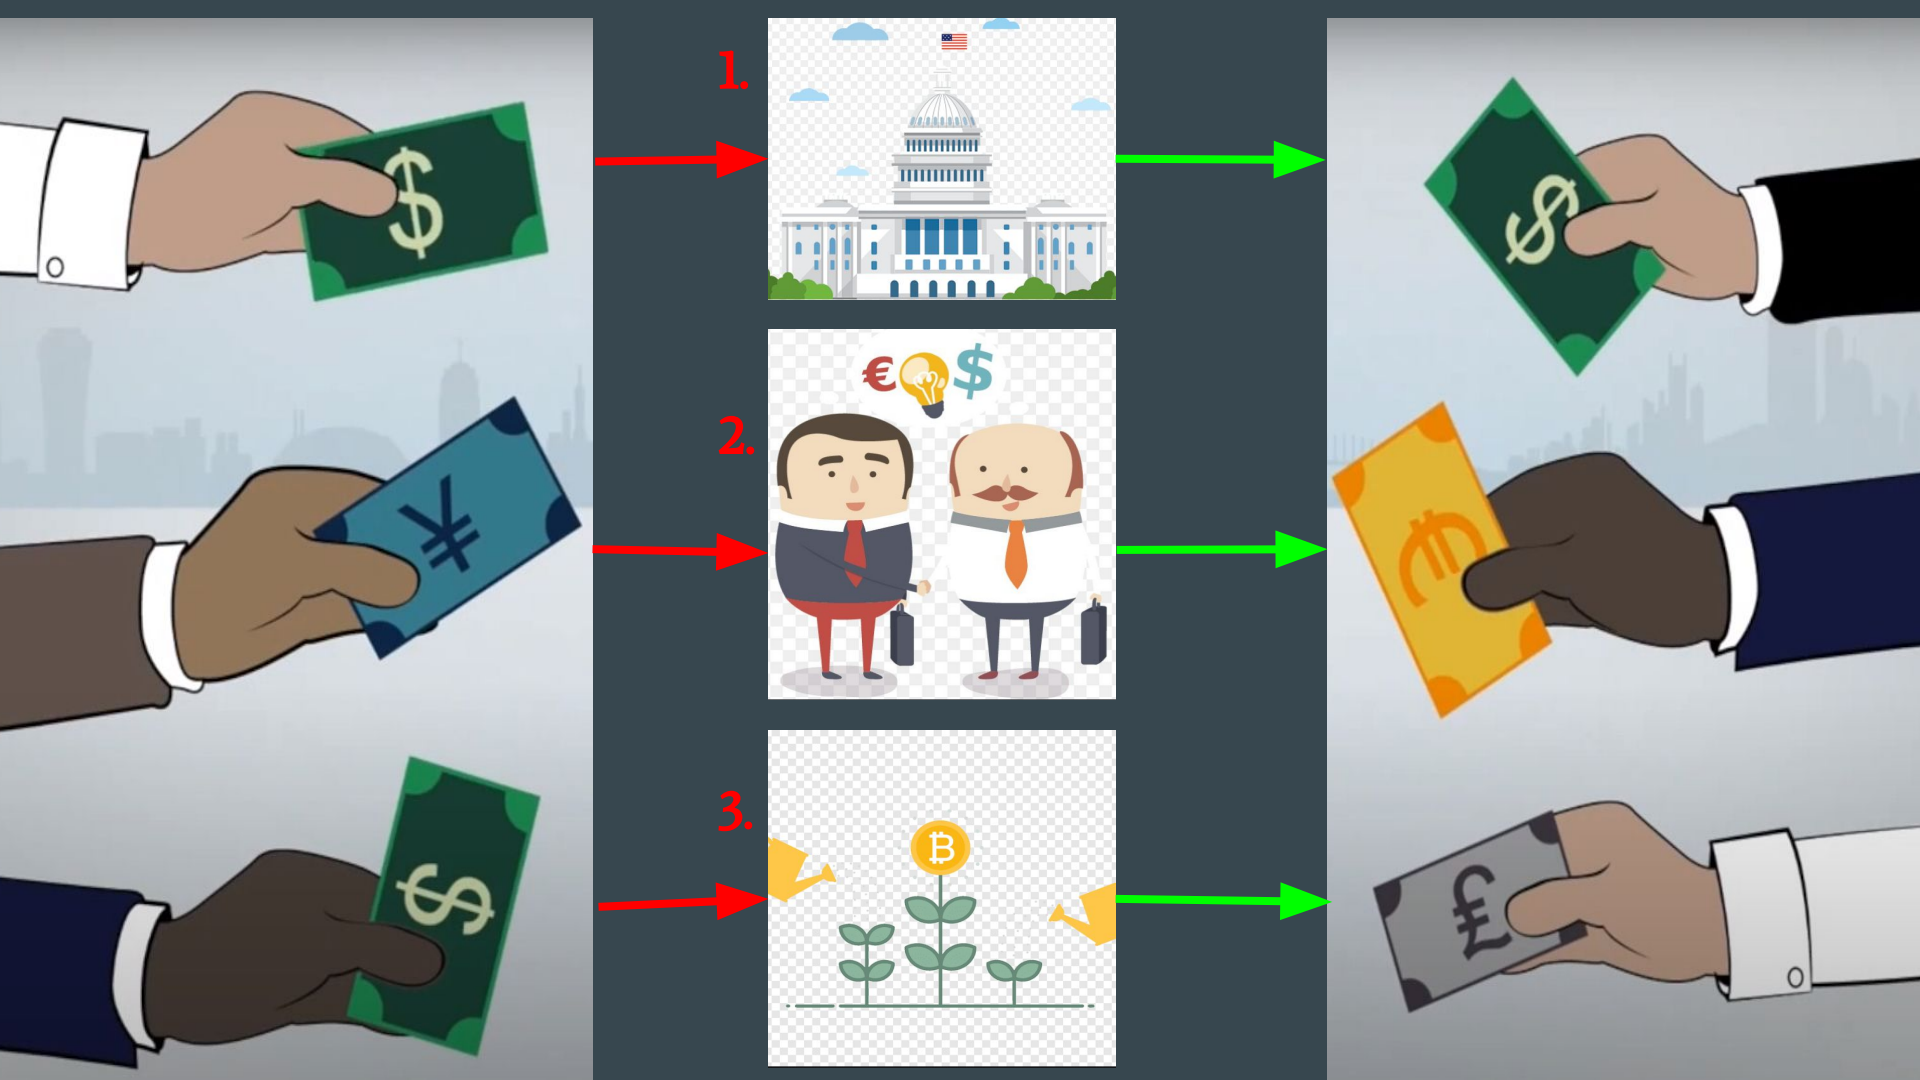

Riya Suthar

Archna Kumari

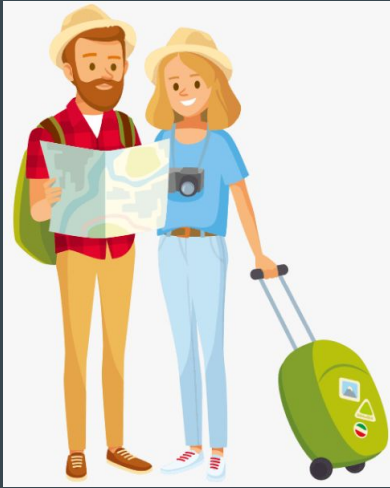

# Case Study:

- ❖ Design a payment wallet platform which allows users to apply for Spot Cash in Forex of their choice of location for purchase / payments for certain local services such as Medicines, Cinema, Malls, and Food & Beverages and/or for self and spouse. You can include other offers bundled services easily available and enable rewards for every payment.

Similar to an ecommerce platform, combined but specialized for in Spot Forex needs of Global Travellers integrated with their Choice of Bank. By building digital platform, you would enable local / common services and financial transactions for individual needs and go cashless or even allow cash withdrawals.

# Audience/ Customer

Global Travellers

Vendors
